

# BANISH™ 30 GOLD

MULTI-CALIBER SUPPRESSORS

This new 30 cal QD suppressor brings a user-serviceable design that is lighter weight, shorter and quieter than anything we have ever tested. You won't find a lighter and quieter can anywhere!

The most versatile suppressor in the Banish line, the Banish 30-GOLD is rated rimfire to 300RUM. All Banish suppressors have been designed for unmatched sound suppression. **Testing shows that Banish 30-GOLD reduces report down to a whopping 132.9 decibels!**

Like all Banish suppressors, the Banish 30-GOLD is made from a strong, Titanium alloy for unmatched durability, at an extremely light weight.

The Banish 30-GOLD comes as a 8.2-inch quick detach suppressor holding 11 STifle™ baffles, and comes with two 100% Titanium muzzle brakes (1/2X28 and 5/8x24).

This new suppressor comes with the complete premium package, including a limited-edition gray Devour suppressor cover, black suppressor pouch, two muzzle brakes, a baffle removal tool, a Silencer Central t-shirt (received at time of purchase), and vinyl sticker.

Perfect for the range, hunting, or any other shooting application, the Banish 30-GOLD will significantly reduce the report and recoil of large-caliber rifles, while still being effective on rifles down to rimfire calibers.
